Reciprocal Membership Rights

Australia's major science and technology centres have negotiated a number of benefits for their members. These include discounted access for members to:

- The Powerhouse Museum
- The National Maritime Museum
- Newcastle Regional Museum
- Questacon - The National Science & Technology Centre
- Scienceworks - Museum of Victoria
- Discovery Centre - Bendigo
- Scitech - Perth
- Sciencentre - Brisbane

Don't forget you will need your membership card to take advantage of these offers.

Wollongong's most visited indoor attraction, the **Science Centre & Planetarium** is the major hands-on science venue of southern NSW. Every year thousands of people of all ages make a visit to the Centre, and with over 100 fun, interactive exhibits dealing with: electricity, chemistry, energy and motion, magnetism, geology, astronomy and more, there is enough to keep the whole family actively entertained for hours!

Our emphasis is on providing lots of active family fun while exploring science in our everyday lives. Suitable for all ages, attractions include two floors of exciting and interactive exhibits, the *Illawarra Coal Science Theatre* and the spectacular and immersive *BlueScope Steel Planetarium*.

The Science Centre Shop is one of the best and largest science shops in the country and provides experiences to extend and enhance your visit. Choose from Science kits and strategy games, telescopes and microscopes, science toys and novelties, beautiful jewellery and art collection umbrellas and much more. It's the perfect place to shop for that unusual gift.

Kiosk, café and outdoor picnic and eating areas are available.
